

# Capre Examination Tables

Modern and unique look for demanding projects

Product pictured with optional accessories.

Main features:

1. Modern and unique looking design for demanding projects
2. Stands firmly on non-marking rubber feet, making the table extremely sturdy
3. Good number of factory-installed options and accessories available

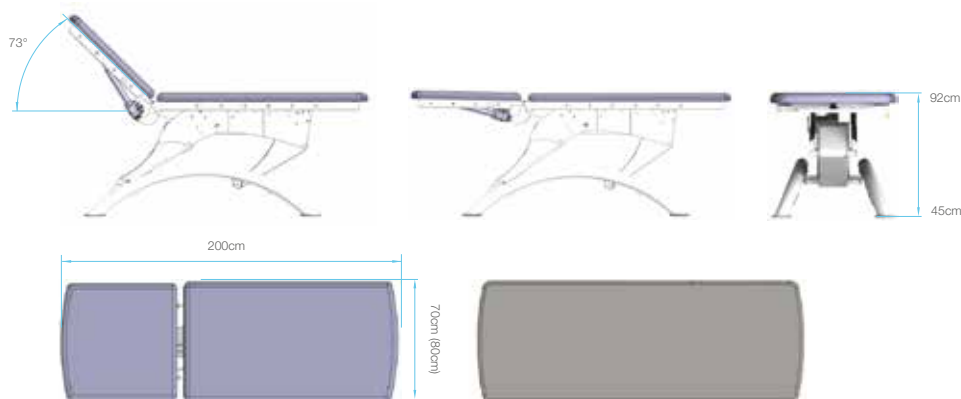

The Lojer Capre Examination tables are in a class of their own when it comes to design and function.

The unique design upgrades an interior of all kinds of medical premises. Examination tables are often placed in examination rooms with rarely a need to maneuver. With the Capre EX models it is possible to choose optional 75 mm castors that improve movability for example for cleaning purposes.

The height adjustment gives best possible ergonomic for professionals and for the patients' comfort. The lowest height of 45 cm is easy for older patients and patients using a wheelchair. Capre EX – examination tables have a range of accessories from side supports to anesthesia frame and a sampling arm rest. Optional 360°- foot bar that gives convenience for height adjustment function improving the user experience.

This model is available as Capre EX1 that has a one-part tabletop. Capre EX2 model with a two-part tabletop and the hydraulic model Capre EX2H with a two-part tabletop.
